

## Advanced key control back by proven Australian Innovation

*BiLock New Generation builds on success of the original BiLock platform, combining advanced locking technology, intelligent key control, and system flexibility to deliver a high-security solution for modern environments.*

### What BiLock New Generation Delivers

#### ADVANCED LOCKING TECHNOLOGY

- Twin-bladed key design with dual sidebars
- 12-pin locking configuration for enhanced security
- Up to 16.7 million key combinations
- Moving element technology provides an additional locking dimension

#### HIGH SECURITY KEY CONTROL

- Authorised agent-controlled key duplication
- Dual keyway design helps prevent unauthorised copying
- Resistant to picking and impressioning
- Suitable for complex master key systems

#### SMART KEY IDENTIFICATION

- Smart Key Identification
- Up to three interchangeable colour inserts
- 23 colour options for simple system management
- Supports department, access level, and user identification
- Braille and custom branding options available

#### AUSTRALIAN ENGINEERED

- Designed and manufactured in Australia
- Built on decades of BiLock innovation
- Proven performance across demanding applications

# System & Operational Capability

## QUICK CHANGE CORE (QCC)

- Quick Change Core (QCC)
- Replace or recombine cores in seconds
- Minimises downtime and disruption
- Cost-effective security upgrades
- Proven performance across decades of use

## RETROFIT COMPATIBILITY

- Integrates with compatible First Generation BiLock systems
- Upgrade security without replacing entire lock infrastructure
- Practical transition path for existing users
- Broad compatibility across lock applications

## FLEXIBLE SYSTEM DESIGN

- Supports simple to highly complex master key systems
- Same New Generation core compatible across QCC body styles
- Streamlined system management
- Adaptable to changing security requirements

## PROVEN LONG-TERM PERFORMANCE

- Proven Long-Term Performance
- Trusted in commercial, government, and high-security environments
- Engineered for reliability and durability
- Backed by Australian security expertise
- Designed for long-term operational value

## Why BiLock New Generation

- ✓ Advanced security through innovative moving element technology
- ✓ Flexible upgrade path for existing BiLock systems
- ✓ Proven Australian engineering and innovation
- ✓ Trusted performance with simplified system management
