

Practical Master Keying. **Simplified.**

SERIES**SIX**

six pin locking system

The Series Six 4000 Series delivers a reliable and cost-effective restricted master key solution designed for commercial, institutional, and general-purpose applications. Combining durable construction, flexible system design, and practical visual key identification, Series Six provides dependable everyday security backed by Australian Lock Company's trusted national support network.

- ✓ AUSTRALIAN OWNED
- ✓ AUSTRALIAN DESIGNED
- ✓ AUSTRALIAN MANUFACTURED
- ✓ QUALITY ACCREDITED

The Series Six 4000 Series is Australian Lock Company's versatile range of 6-pin inline cylinders and keys, designed to deliver reliable and cost-effective master key solutions for medium security applications.

Featuring an extensive range of economical cylinder options and ergonomically designed coloured key heads, the Series Six 4000 Series enables flexible system design with clear visual key identification across doors, departments, or access levels. Backed by Australian Lock Company's national agent network, the platform provides an efficient and scalable solution for a wide range of commercial and institutional environments.

Proudly manufactured at Australian Lock Company's Unanderra facility, the Series Six range reflects our commitment to quality Australian manufacturing and dependable security solutions.

By utilising advanced purpose-built key milling technology, we are able to maintain precise production standards and deliver a consistently high-quality product to our customers.

VISUAL KEY CONTROL SIMPLIFIED

Series Six features a versatile three-panel key head system designed to simplify identification and improve everyday key management.

With a wide selection of interchangeable colour combinations available, keys can be visually customised to differentiate doors, departments, access levels, or user groups - creating a practical and efficient solution for organised master key systems.

PRACTICAL MASTER KEYING. SIMPLIFIED.
